Latency

< 100 ms

0 ms under 100 ms

Sub-100ms internal state changes across multi-terminal setups.

Data ownership

Sovereign

Complete sovereignty. Databases synchronize with client-controlled infrastructure.

Reliability

Offline-capable

Operational nodes designed to function without internet disruption.

Integrations

Deterministic

Clean, deterministic APIs connecting legacy ERPs, payment gateways, and third-party logistics.

الرقم الوحيد هو البطل: «> 100 ms» بخط 216 ضخم مع تظليل أزرق وخط زمني يمتد من 0 إلى 100 ms، ثم المواصفات الثلاث الأخرى في صف أصغر تحته. لأنه الرقم الوحيد القابل للقياس، فيتحول إلى صورة القسم.
